

Cal OES Daily Situation Report

May 18, 2022

Hat tip to our #TMFR wildland crews on the prescribed burn in Dog Valley. The Humboldt Toiyabe operation supports forest management, and wildland fuels abatement, reducing the wildfire risk.

- Nothing significant to report.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Breezy north winds through much of the Sacramento Valley on Thursday and Friday can be expected, with gusts of 30-40 mph. These winds combined with very low relative humidity and drying fuels will result in elevated fire weather conditions.

SOUTHERN CALIFORNIA

- Red flag warning in effect from 05/19/22, 1100 hours to 05/20/22, 2200 hours for San Bernardino and Mono Counties.
 - Southwest winds 20 to 25 mph with gusts to 40 mph

Coastal Flooding							
Risk Levels	Little to None		Minor	Moderate	Major		Extreme

Weather Key Points

Regional Operations Center

Western Region

Wednesday, May 18

- Very warm temperatures will persist for many areas of the state into next week, with slightly cooler temperatures on Friday.
 - Daytime temperatures in the lower 90s will remain likely across the Central Valley and inland southern California, with readings exceeding 100 degrees over the southern desert areas through Thursday. Temperatures warming Saturday into next week.
 - Minor to moderate heat risk impacts will continue many afternoons through into early next week
- Increasing North to Northwest winds across the state on Thursday, and continuing into Friday for the Northern and Central Sacramento Valley
 - Wind gusts of 20 to 35 mph are expected, with gusts of 45 to 55 mph possible, especially for the northern Sacramento Valley, Sierra Nevadas, and mountains of southern California
 - Fire weather conditions will become elevated to locally critical Thursday through Friday, especially for the Northern and Central Valley
- No precipitation is expected across the state through the weekend

Precipitation Forecast

Regional Operations Center

Western Region

Wednesday, May 18

No significant precipitation is expected the next 3 days

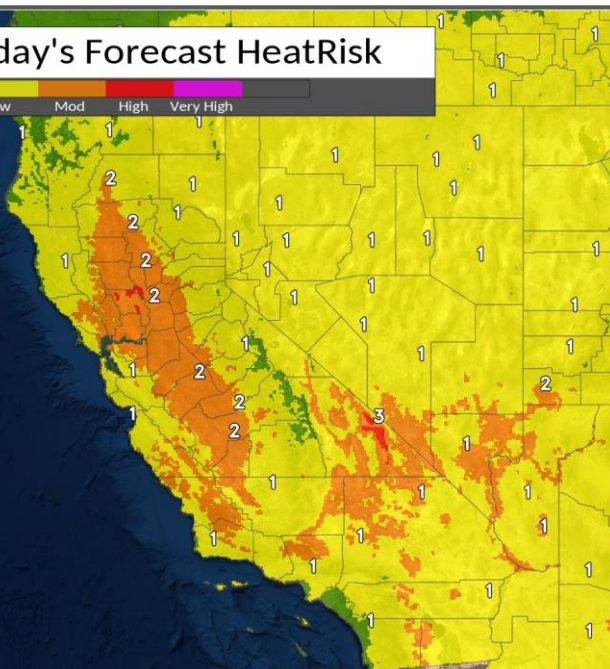

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

Wednesday's Forecast HeatRisk

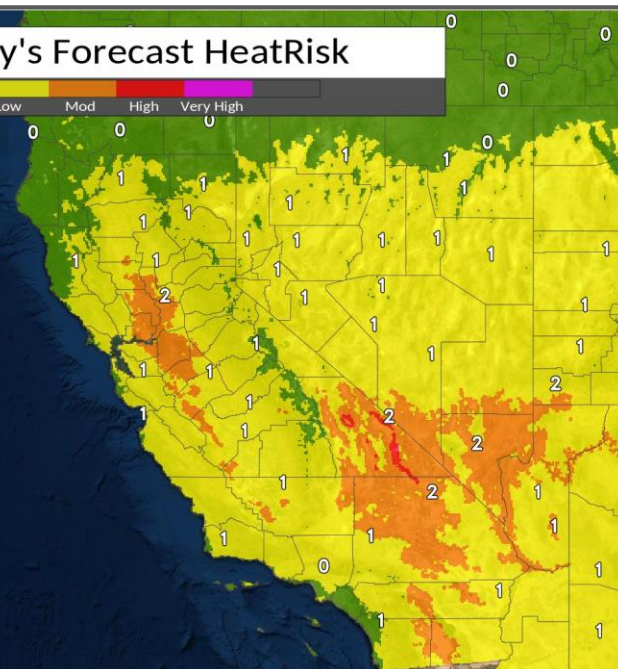

None Low Mod High Very High

GSL
Global Systems Laboratory

Thursday's Forecast HeatRisk

None Low Mod High Very High

GSL
Global Systems Laboratory

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Wednesday, May 18

6-10 Day Outlook (May 23 - May 27)

Temperatures

- Above normal temperatures are favored statewide

Precipitation

- Below normal precipitation is favored for much of the state, with near normal precipitation favored across far southern California and far northern California

8-14 Day Outlook (May 25 – May 31)

Temperatures

- Above normal temperatures are favored for the majority of the state, with below normal temperatures favored across far northern California

Precipitation

- Below normal precipitation is again favored for most of the state, with near normal precipitation favored for far southern California
